Professional Summary

Senior AI Engineer with **5+ years of total IT/software engineering experience** building **production-ready Generative AI solutions, LLM-powered systems, Agentic AI applications, RAG pipelines, and scalable backend architectures.**

Specialized in **multi-agent orchestration, autonomous decision systems, LangGraph workflows, AI-integrated microservices, and production-grade AI platforms** using Python and Java. Experienced in designing systems with logging/telemetry, evaluation pipelines, and data-driven optimization.

Technical Skills

Languages	Java, Python, JavaScript, TypeScript, SQL
AI/ML	LLM APIs, Prompt Engineering, NLP, Evaluation Techniques, structured outputs
Frameworks	Spring Boot, FastAPI, Hibernate, JPA
AI Tools	OpenAI API, MCP, LangChain, LangGraph, FAISS, Vector Databases, RAG pipelines, agentic workflows
Data	Pandas, NumPy
Messaging	Apache Kafka (real-time pipelines, async AI workflows)
Databases	PostgreSQL, MySQL, MongoDB
DevOps	Docker, Kubernetes, Redis, CI/CD, version control, testing
Concepts	Agentic AI, RAG, Distributed Systems, Microservices, Scalability, secure coding, enterprise integration

Professional Experience

Infosys — Bank of America | *Senior Software Engineer* Nov 2025 – Present | Pune

- Designed LLM-integrated backend systems enabling intelligent workflow automation with prompt engineering and structured outputs.
- Built AI-driven microservices using event-driven architecture and real-time pipelines, integrating with enterprise APIs and auth.
- Implemented Kafka-based data pipelines for continuous AI processing and decision flows with logging/telemetry.
- Improved system efficiency by 40% through optimized AI-integrated architecture and production monitoring.

Nexsys — Accelya | *Software Engineer* Dec 2023 – Oct 2025 | Mumbai

- Developed systems processing 500K+ daily transactions with AI-ready architecture, following enterprise engineering standards.
- Built asynchronous pipelines supporting real-time intelligent data processing with retrieval and grounding.
- Designed scalable backend services and microservice-based integrations using FastAPI and Docker.

Texala | *Software Engineer* May 2023 – Dec 2023 | Pune

- Developed microservices and maintained production-grade backend systems with secure coding practices.
- Built scalable APIs and integrated enterprise applications using Spring Boot and CI/CD.

Flyboard Ventures | *Software Engineer* Aug 2022 – May 2023 | Chandigarh

- Built scalable APIs supporting high-concurrency systems with version control and testing.
- Worked on backend architecture, performance tuning, and reliability improvements using Docker and Kubernetes.

Engineering Projects

Agentic Astro Insight Engine — Multi-Agent AI System

- Built a multi-agent LLM system to generate personalized life-insight reports from user queries, using agentic workflows and tool calling.
- Designed LangGraph-based orchestration enabling collaboration across domain-specific agents with task decomposition.
- Implemented structured reasoning pipeline combining domain-specific agents with consensus generation and evaluation.
- Developed end-to-end workflow from user input to dynamic PDF report generation with logging/telemetry.
- Integrated multiple reasoning domains into a unified AI consultation system using MCP-style tool integrations.

Bench Resource Optimization System — AI Agent System

- Built a RAG-based AI system to map employee skills to project roles and identify gaps, using vector DB retrieval and grounding.
- Developed multi-agent pipeline for CV parsing, role mapping, planning, and tracking with agentic automation.
- Implemented FAISS-based retrieval for role matching using vector similarity search and embeddings.
- Generated personalized preparation plans using LLM-based planning agents with prompt engineering.
- Designed readiness scoring system to optimize resource allocation and deployment readiness with evaluation/testing.

Education

Future Institute of Engineering and Management | *B.Tech - Computer Science Engineering* 2014 – 2018 | CGPA: 8.7
